PRINCIPAL'S MESSAGE TO YEARBOOK

1969

Among the many definitions that a dictionary might give of the word tradition is that it is a handing down of practices or customs from generation to generation by oral communication.

In this day of the so-called "Generation Gap" it is important that you consider what legacy your generation will leave to posterity. Many of the fads of the "mod" set of today more than likely will fade with time and be just another memory of this generation as were the "Gold Fish" dance and the "Big Apple" of a generation ago.

You will, I hope, find in this time of radical and free thinking - time to consider the future generation and the fate of this nation. When your thoughts and actions become settled and channeled and you are people controlling your community and this nation may you recall that it has been tradition that free men who value their freedom, will never allow anyone to usurp or misuse those attributes that have made this nation what it is. May you uphold this honorable tradition.

Lawrence S. Ames

Lawrence S. Ames
District Principal.

We the Class of '69, dedicate this Heuveltonian to Mr. Wesley Stitt. Throughout our four years in high school he has provided sound advice and active concern, so necessary to an embarking senior, and indeed all high school students.

Mr. Stitt is a great believer in and living example of what he calls "relative individualism"--that status is immaterial--whether plumber or president is irrelevant--that realization of potential and development of capacity is all. We thank you, Mr. Stitt, for your constant concern and invaluable advice.

Classes of past years have experienced many of the same joys and sorrows which the Class of 1969 will face. They have faced the problems of war, crime, and poverty. Their efforts in overcoming these problems have made our society worthwhile. We hope that we will be able to continue this tradition.
